Holiday at home

“We found that working with ZoneWiFi turned our vision of a premium wireless service for our clients into a reality”

Roy Stephenson, Founder of Brompton Lakes..

Brompton Lakes is a beautiful lakeside development of luxury 3-bedroom holiday lodges set in 26 acres of the Yorkshire Dales. This destination offers a holiday experience that can be taken at a pace, chosen by our guests, as well as a peaceful conference facility for business users.

Challenges:

- To offer a premium WiFi service to all the lodges and conference rooms right across the lakeside estate.
- To tackle the problems of intermittent signals and range

Results:

- The provision of a fast and reliable network throughout the 60 guest rooms, each with open plan living space and a terrace spread all around the beautiful span of water.
- The Gold ZoneWiFi service created an interactive system enabling a five* operation for both guests and management.

Brompton Lakes wanted to offer a range of WiFi services for their guests, which ensures they are able to stay in touch with the outside world, whilst enjoying the tranquillity of the lakes. This led to the formation of a partnership with ZoneWiFi Ltd to find the very best solution to the problem of delivering a premium range of wireless services to all of the 60 guest rooms and conference areas. This has indeed enabled them to cater for the demanding 5* standards set by their guests.

The solid wooden structures with foil backed insulation were blocking the wireless signals from entering the lodges. ZoneWiFi's unique transmission system solved this problem, even the remote lodges sited some 300 m from the main reception building.

ZoneWiFi specialise in planning and delivering cost effective Wi-Fi solutions for large scale sites, both indoor (hotels, apartment blocks) and outdoor (Lodge estates, caravan parks, sporting events)

Information, please contact us at: Concierge@ZoneWiFi.eu or Call us: 0044 78366 11111
